

GO GREEN AND SAVE THE EARTH

ABOUT US

PaC is a leading professional distributor of electronic and electrical components for over 25 years. In early 2017, we started providing Electric Vehicle (EV) chargers and a range of charging solution for car importer partners for their new EV owners.

We aim to offer a long-term solution for Electric Vehicle users. We can work with EV owners / MCSTs / Landlords / Commercial properties to handle the rapidly increasing demands on the convenience of home charging of EV. We hope to turn the city to be greener and more environmentally friendly and promote the use of EVs in Singapore.
